

Make Up Your Mind

The Softies

I see that you're still wearing my ring
I stopped wearing yours
don't you have some decency
but if you didn't care then
then why should you care now
so you manage still somehow
to make a fool of me but I'm alright this way
and though you seem okay
the truth is showing through
I'm just another disaster
you managed to avert
nevermind how much it hurt
or do you ever feel that too or is your mind already made up?
or is your mind already made up?
