I pray

Azerty

When I was young I dreamed about, oh, so many places
When I was young I never thought I'd be afraid
The years go by and with them comes, oh, so many changes
You know what I mean
I pray there's another way
Sunshine on the morning water
What a day was yesterday, hmm
I pray there will be an answer
(There's an answer)
I pray
And in my youth I realized, nothing lasts forever
I find myself remembering those happy days
Follow me, I'll show you all the colors of the rainbow
You know what I mean
I pray there's another way
Sunshine on the morning water
What a day was yesterday, hmm
I pray there will be an answer
(There's an answer)
I pray
Don't wait, don't be late
You don't have a second left to hesitate
Walk, talk, do it all
Nothing you would do will ever break the fall

Turn and turn, tell me what are you seeing
Clear your mind, if you want to be free, be there
Turn around expectations, say goodbye to complications
Be there, be there
I pray there's another way
(I pray)
Sunshine on the morning water
What a day was yesterday, hmm, oh yeah
I pray there will be an answer
(There's an answer)
I pray, I pray, I pray
I pray there's another way
(I pray)
Sunshine on the morning water

What a day was yesterday, hmm
(What a day, yeah)
I pray there will be an answer
(There's an answer)
I pray, I pray
I pray, I pray
I pray that's another way
I pray there will be an answer
(There's an answer)
I pray, I pray, I pray
