

I'll Be There

Faber Drive

If you're lost and you need to find
Some escape or some peace of mind
Call my name when you need a friend
I'll be there, I'll be there If you're dreams are drenched in sweat
You can't sleep, there's too much in your head
Call my name any time of day
I'll be there, I'll be there When you can't carry on, when the road's way too long
Know that you're not alone, I can carry you home
If you hold on tonight I'll be there If you give 'til you've got nothing left
Wanted more but you end up with less
All your friends have turned away
But I'll be there, I'll be there When you can't carry on, when the road's way too long
Know that you're not alone, I can carry you home
If you hold on tonight, if you hold on tonight The weight of the world is too much to take
Pulling you down like a tidal wave
I can hold you, I will hold you here and now If you're lost and you need to find
Some escape or some peace in mind, yeah When you can't carry on, when the road's way too long
Know that you're not alone, I can carry you home
If you hold on tonight When you can't carry on, when the road's way too long
Know that you're not alone, I can carry you home
If you hold on tonight I'll be there When the world seems wrong, when you've come undone
No, you're not alone, I'll be there for you
When the world seems wrong, when you've come undone
No, you're not alone, you know I'll be there
