Love Has A Diameter

Biffy Clyro

You can give up if you like, your head's lying down at your feet
You can call on the phone anytime you want to talk to me
If you know who you are, you can always go round and see
If you don't and you're scared concentrate and grit your teeth
I'm watching the radio 'cause I don't compare
I'm watching the radio but it's the television looking at me
Woa
Woa
Woa
Woa
Feathers will fly if you shoot a bullet full of bubble gum
At my throat or my heart, I'm protected by a humming bird
Receive only luck if you can it wouldn't be a constant mistake
Overflown but underworn so please come follow me
I'm watching the radio 'cause I don't compare
I'm watching the radio but it's the television looking at me
I'm watching the radio 'cause I don't compare
I'm watching the radio but it's the television looking
The television looking at me
Woa
Woa
Woa
Woa
(I will claw at your own feet)

Woa
(Just because it tastes so sweet)
Woa
(Take it out quiet star)
Woa
(It's not like you're in need)
Woa
I'm watching the radio 'cause I don't compare
I'm watching the radio but it's the television looking at me
(I will claw at your own feet)
I'm watching the radio 'cause I don't compare
(Take it out quiet star)
I'm watching the radio but it's the television looking
The television looking at me

Woa
Woa
(Television looking at me)
Woa
Woa
(Television looking at me)
Woa
Woa
(Television looking at me)
