

Recover

Cvrches

 Been torn apart
 Got so many scratches and scars
 Maybe they won't all go away
 But they'll fade
 Maybe time can mend us together again
 It's not what we've done but how far we've come

 [Chorus:]
 We will recover
 The worst is over now
 All those fires we've been walking through
 And still we survived somehow
 We will recover
The worst is behind and it hurts but in time I know that we will recover

 Got so much to lose
 Seems I've lost my power to choose
 What to love and when to let go
 That all changed
 Get bitten once and then you're afraid
 What a waste
 Look what we've done
 How far we've come

 [Chorus]

 Everybody's got their own reason to cry
 Everybody fights but not everyone survives
 Everybody searches, not everybody finds
 And I'm still in recovery, help me make it out alive

 [Chorus]
