Things I Like

Nigahiga

Heres a few things that I like now, making beats on my MPC
Picking up an underground CD or mix tape
Diggin' through record crates
Goldin' stay looking for the perfect break to sample and truncateRaw raps on a raw track
Copping mad timberlands like the mall that you shop at
Combat fatigues a notebook full of rhyme schemes
That I keep in my backpackAnthem of a life rockin' the mic
Spending a little time showing love to my wife
The way Christ loved us sacrificed His life
Bore them stripes restoring the lifeDoing shows on the stage seeing souls getting saved
Hearing this track being played in your escalate
As you roll through the hood sitting on blades
Cats gonna bug when they hear they mom sayI'd like the hands up, keep ya hands up
Party people in the front I need ya hands up
And when ya hands up leave your hands up
See there's a lot of thing I like but only one thing I loveI'd like the hands up, keep ya hands up
Party people in the front I need ya hands up
And when ya hands up leave your hands up
'Cause there's a lot of thing I like but only one thing I loveI like Saturdays and just waking up late
I like things right away 'cuz I don't like to wait
I like tasty cakes, and Philly cheese steaks
And the Tampa Bay bucs and Miami hurricanesNow I like my shoes clean with a fresh pair of jeans
And some rice and some beans and a box of krispy kremes
And I like mt dew 'cuz I like the caffine
And the pistons and wolverines is my sports teamsI like the double double at the in and out burger
But I don't like Mc Donalds always mess up my order
I like my man spongebob and home star runner
I like flip flops and tank tops in the summerI like to make goofy faces when I smile for the camera
I like to rock old school hip hop and MC Hammer
I like X box clean socks I like Canada
But there's I want and this is what I'm asking yaI'd like the hands up, keep ya hands up
Party people in the front I need ya hands up
And when ya hands up leave your hands up
See there's a lot of thing I like but only one thing I loveI'd like the hands up, keep ya hands up
Party people in the front I need ya hands up
And when ya hands up leave your hands up
'Cause there's a lot of thing I like but only one thing I loveI love the way that God just takes a man
And then changes him gives him strength to stand
And I love when the world says I ain't got a chance

See I'm loving that you're the one that tells me I canAnd I just love the fact that you just loved me first
And you erased the past freed me from the curse
And even at the times when I just act my worse
I love that ya take me back that I don't deserveAnd I love every time that I open your word
That I see in every line every chapter and verse
That your love made you die and that love that occurred
It left you crucified 'cuz your love for the worldAnd I love how you just love me so much
And I love how you provide just more than enough
With the rhyme that I say now that I bust
See I like a lot of things but you're the one I loveI'd like the hands up keep ya hands up
Party people in the front I need ya hands up
And when ya hands up leave your hands up
See there's a lot of thing I like but only one thing I loveI'd like the hands up keep ya hands up
Party people in the front I need ya hands up
And when ya hands up leave your hands up
'Cause there's a lot of thing I like but only one thing I loveSee there's a lot of thing I like but only one thing I love
'Cause there's a lot of thing I like but only one thing I love
