

Nature Boy

Judith Edelman

Is it just another day at work in the machine
Living by the numbers in a business magazine
The other boys don't see what is breaking free
But you don't have to keep it down for me
Rage against the jungle ever teeming in your head
The more you try to beat it back the wilder it gets
Flowers in the street are breaking through concrete
Seeding revolution at your feet
Dangerous to be in your own skin
Tearing out your hair over the storm that's blowing in
Nature boy, nature boy
Can't tame nature, can't tame nature, boy
Terrified of dreams, you take a pill to stay awake
But they will have their way with you no matter what you take
Feverish and green, innocent, obscene
Sleeping, waking, living in-between

Chorus

He's dreaming in green

He's dreaming in green

Chorus x 2
