

# Love Will

[Trace Adkins](#)

When we can't find the time to spend

Bein' lovers and best of friends

When we can't seem to make it work

When we can't find the words

Chorus:

Love will, love will, love will, love will

There'll be times that we disagree

About the way things are supposed to be

And when we can't find the common ground

When we can't work it out

Chorus

Ashes to ashes and dust to dust

Earthly possessions turn to rust

And when the world won't recall our name

One thing will remain

Chorus
