

# Who Cares?

**Ella Fitzgerald, Nelson Riddle Orchestra**

Moving on the evening of the 87th day  
Maybe a solution might affect you right away  
Jesus taught Himself, a certain state of mind  
Line 'em up, move 'em along, haven't got much time  
    Who cares? No one's talking anyway  
    Who cares? Won't the problem go away?  
Who cares? Change the channel, standard shift  
    Who cares? Does anybody give a shit?  
    Dimwits on the freeway stay alive at 55  
    Politicians speeding, just trying to survive  
Couldn't stop the press, what was a bloody mess  
Mashin' down a paper sack and couldn't pass the test  
    Who cares? No one's talking anyway  
    Who cares? Won't the problem go away?  
Who cares? Change the channel, standard shift  
    Who cares? Does anybody give a shit?
