Ride

Stacie Orrico

Wanna know how I got to be this way?
Wanna know if you had it would you be the same?
I can tell that you're tired of playing a losing game
I'm checkin' you 'cause I got love for you
I gotta let you know that you don't have to lose
Come take a ride on the other side
Lookin' for love that you, you cannot find
Gotta know love comes in many many ways
The love that God give you will never never change
Come take a ride on the other side
Lookin' for love that you, you cannot find
Gotta know love comes in many many ways
The love that God give you will never never change
I know you feel that time has left you by yourself
You can just chill 'cause God's been with you ever step
And even when you took a ride to ease the pain inside
Don't ever think He's been away from you
A million angels who've been watchin' for you come on
Come take a ride on the other side
Lookin' for love that you, you cannot find
Gotta know love comes in many many ways
The love that God give you will never never change
Come take a ride on the other side
Lookin' for love that you, you cannot find
Gotta know love comes in many many ways
The love that God give you will never never change
Well it's alright if you wanna wanna take a ride
Well it's alright if you wanna wanna take a ride
Take a ride on the other
Take a ride on the other
Yeah, yeah take a ride
Come take a ride on the other side
Lookin' for love that you, you cannot find
Gotta know love comes in many many ways
The love that God give you will never never change
Come take a ride on the other side
Lookin' for love that you, you cannot find
Gotta know love comes in many many ways
The love that God give you will never never change

Come take a ride on the other side
Lookin' for love that you, you cannot find
'Cause you gotta know love comes in many many ways
But the love that God give you will never never change
If you wanna wanna take a ride
Yeah, yeah take a ride
