

Changes are No Good

The Stills

I wear the smile, I wear the laugh
I'm in the backstage changing heads
I am a weekday on weekends
I hate my best friends Spoken, choked-up, punk man holds this hot drones 's, try and act adult
Like a walk-man falls to pieces, all parts no high See me change, changes are no good... [2x]
See me change All the world's deranged and I'm left crouched, people delayed are in a rush
I want a world but I might throw up. Will it ruin my maker? See me change, changes are no good... [2x]
See me change... See me change, changes are no good
See things change, changes are no good
See me change...
