

# All My Friends Who Play Guitar

## Starflyer 59

This is what you do for a name  
You wanna waste your life in a country  
And fly around on a plane? We did the same  
We drove in cars and flew around on planesAnd never thought it'd go this far  
We never thought that we'd ever go far  
Like all my friends who play guitar  
Know who we are? We never go far  
Like all my friends who play guitarSo this is what we did for a name  
We took a taste of life in a country  
And fly around on planes we do the same  
We drive in cars and fly around on planesAnd never thought it'd go this far  
We never thought that we'd ever go far  
Like all my friends who play guitar  
Know who we are? We never go far  
Like all my friends who play guitar
