Scared As Fuck

An Horse

I'm not really scared
I just like the way that those words sound
When they fall from my mouth
And I say them to you out aloudSometimes my hands
Clap louder than everyone else
But that's the way it stands
If I want to clap the loudestBut I got so scared
That you might be
A better me than meYou can take my socks
But you damn well better leave my gloves
'Cause I need my hands
To be warm like everybody else'sOnce my hands are warm
I can give them to you and say
Please do all you can
But my fingerprints will stay the sameBut I got so scared
That you might be
A better me than meYeah, I got so scared
That you might be
A better me than meBut we know someone who got so scared
At the supermarket and you were there
And I get to hold their hand
'Cause they'll get scared again
They'll get scared againI'm not really scared
I'm not really scared
I'm not really scared
I'm not really scaredI'm not really scared
I'm not really scared
I'm not really scared
