

State Of Grace

Britney Spears

Love is a state of grace
Transcending time and space
No other way I can describe
 Insanely beautiful
 It's almost mystical
 Cause you're mine
And I can't believe that I feel
 What I feel
Such a strange kind of 'real'
Love is a state of grace
 Between you and I
 Golden, broken
 I didn't know
One touch could open
 My body and soul
And we've just begun
Like the moon and sun
 We fade to one
Love is a state of grace
Transcending time and space
No other way I can describe

 Insanely beautiful
 It's almost mystical
 Cause you're mine
And I can't believe that I feel
 What I feel
Such a strange kind of 'real'
Love is a state of grace
 Between you and I
 And the way
 That we feel
 Is a dream
 That we know is real
Love is a state of grace
Love is a state of grace
Love is a state of grace
Transcending time and space
No other way I can describe

Insanely beautiful
It's almost mystical
Cause you're mine
Love is a state of grace
