Fly Away (feat. Lili Pistorius)

Topic

Standings just surrounded by
silence dreaming of the sky,
Wanna high, wanna fly away.
Now the true take us two
different places of our youth,
Wanna be-e somewhere else.Fly, fly away, fly away
Flies of the places of our dreams.
Fly, fly away, fly away
Fly above the clouds so we are free.When a feel lost the ground
where we're standing on,
When a heart lost a beat
we will be reborn,
When our ears lost the sound
we were leaning on,
When our eyes lost the light
we will be high..Breathing in we guess we're young
feel it running through our lungs
Now we high, now we fly away.
Now the ship shift us to
different places of our youth
Now we a-are somewhere elseFly, fly away, fly away
Flies of the places of our dreams.
Fly, fly away, fly away
Fly above the clouds so we are free.When a feel lost the ground
where we're standing on,
When a heart lost a beat
we will be reborn,
When our ears lost the sound
we were leaning on,
When our eyes lost the light
we will be high..
