

Are We Innocent

Cover Your Tracks

Are we innocent, tell me are we innocent?
I can't shake these ghosts from my past
It's not fair for me to ask
I'm past the point of turning back
Are we innocent, tell me, are we innocent?
Oh you bleed the life from me
I'll break your heart I guarantee
So dig your knife inside of me
Are we innocent, tell me, are we innocent?
I'm keeping your secrets out of my reasons
To build a new start
We all fall apart
I'm twisting the pieces, twisting the meaning
Till death do us part
Let's take it back
Burn it all down Stay inside and waste away
How many times can you say, we're not innocent, none of us are innocent
Throw it all away again, pray to god to play pretend
How many nights can we depend on
Being innocent, none of us are innocent To build a new start
We all fall apart
I'm twisting the pieces, twisting the meaning
Till death do us part
Let's take it back
Burn it all down
Just a liar, just a liar, in the fire, in the fire
Let's take it all back, burn it all down
Just a liar, just a liar, in the fire, in the fire
Let's take it all back
Burn it all down Are we, are we innocent, tell me are we innocent?
All around the walls tempered eyes and ordinary picture perfect words
Are we innocent, tell me are we innocent?
