

Black Velveteen

Lenny Kravitz

Black velveteen, simple and clean
Oh what a bad machine
Black velveteen, supple and lean
The 21st century dream
Ready to please, free from disease
She's waiting on her knees
It's not a sin, titanium skin
Just take her for a spin
Black velveteen, simple and clean
Oh what a bad machine
Black velveteen, supple and lean
The 21st century dream
Nice piece of kit, electronic clit
Just sit down for a fit
Ready to trip, a guarantee hit
She's all you ever wished
Black velveteen don't give a damn she'll do dishes
Black velveteen knows all the night spots in France
Black velveteen's cat smells like strawberry kittens
Black velveteen always is ready to dance
She's ready to
Black velveteen, simple and clean
Oh what a bad machine
Black velveteen, supple and lean
The 21st century dream
Black velveteen don't give a damn she'll do dishes
Black velveteen knows all the night spots in France
Black velveteen's cat smells like strawberry kittens
Black velveteen always is ready to dance
She's ready to
Black velveteen don't give a damn she'll do dishes
Black velveteen knows all the night spots in France
Black velveteen's cat smells like strawberry kittens
Black velveteen always is ready to dance
She's ready to
Black velveteen, simple and clean
Oh what a bad machine
Black velveteen, supple and lean
The 21st century dream

Black velveteen, simple and clean
Oh what a bad machine
Black velveteen, supple and lean
The 21st century dream
