

Hear That Sound

Inxs

So your time has come
Did you watch the fools?
Don't let anyone tell you
What you must do
Do you like what you see?
Or does it make you cry?
Use your imagination
And start a fire
Hear that sound
There's a voice to be found
Make the changes go round
Hear that sound
And my selfish ways
Disappeared one day
With the realization
Of a new way
Images of the free
Coming into view
Our hearts full of promises
Of all we can do
Hear that sound
There's a voice to be found
Make the changes go round

Hear that sound
So your time has come
Did you watch the fools?
Don't let anyone tell you
What you must do
Do you like what you see?
Or does it make you cry?
Use your imagination
And start a fire
Hear that sound
There's a voice to be found
Make the changes go round
Hear that sound
Hear that sound
There's a voice to be found

Make the changes go round
Hear that sound
Hear that sound
There's a voice to be found
Make the changes go round
Hear that sound
