

# Dorothy's a Planet

## Guided By Voices

(No more moon missions - it's time for Dorothy's a planet...)

True the summer's gone to flake  
And all the sugar cane to cake  
And de-activate your precious gun  
Expose your efforts  
Every golden world is baked  
She's a person fast at play  
Now she's a planet on display  
Then revolving like a halo  
She say's hello world  
Did you make sense of it today?  
"cause it's OK  
Because you're always on my mind  
Now you're always on my mind  
And I find myself just wasting all my time  
With the kind  
You supply my mind with pollution  
Yeah supply my mind with pollution
