

Sleeping Beauty

Menomena

Everyone
When everyone's sleeping through the night
When everyone's sleeping through the night
Little and full, my hands
When everyone, everyone
When everyone's sleeping through the night
When everyone's sleeping through the night
Little and full, my handsHotel bathroom
Off the deep end
There's a light onSleeping beauty
Share your wisdom
Keep the smoke in with a towelStand backRecollection
Will betray us
Sleeping beautyWrite a memoir
Eye through your see
Make me honest, share the proceedsStand back
(When everyone's sleeping through the night)
