

Weathervane

[Kris Delmhorst](#)

Well the tree lie down beneath you
The grasses bow & sway
The sands rise to meet you
The ocean it makes way And you move through your directions
And i turn my face away
The grasses rise to meet you
The ocean it makes way Well i too can more the prairies
I too can move the sea
I'm gonna take that motion
Take it right inside me I'm gonna rattle at your windows
Rattle at your doors
Rattle at your shutters
Show you what they're for
