Ammunition

Trembling Blue Stars

So we'll just be
The greatest couple that never were
And I won't think
We stand a chance if we never didIf you've never been mine
Then I guess I can't be losing you
So everything's all right
Your heart's not breaking and I don't feel as I doI know you're suffering
I put trouble where there wasn't any
I know what I've done
You know I take your words for use as ammunitionBut I do it because
I'm scared and searching for ways that lead to you
And I do it because
We're in love and it's obviousIt's the rest of our lives
That's all you're making a difference to
And it's the rest of our lives
I watch unfolding when I know I shouldn't doI know you're suffering
I put trouble where there wasn't any
I know what I've done
You know I take your words for use as ammunitionIf you've never been mine
Then I guess I can't be losing you
So everything's all right
Your heart's not breaking and I don't feel as I doI know what I've done
You know I take your words for use as ammunition
