Blame

[Melanie C](#)

You took me on and you nearly took me down
You're never gonna get anywhere
You never really got anywhere
Lost track of times that I have tried to say
Oh, something has to change
I never really got anywherePound for pound we stumble through the rounds
And I'm bruised
Tit for tat, can't ever take it back
We both loseYou're never gonna stop the rain
But you know you're gonna be okay
When you love someone
There'll always be another fight
But you know you're gonna be alright
When you love someoneI'll take the blame since you decided you're the victim
I never meant to let you down
I never really let you down
Don't recognize the things that you remember
Oh life's so different through your eyes
I never meant to let you down, noTime to time I wonder how we died
Do you?
Day after day, the past is washed away
We're throughYou're never gonna stop the rain
But you know you're gonna be okay
When you love someone
There'll always be another fight
But you know you're gonna be alright
When you love someoneIt's been the problem all along
You wouldn't hear when I tried to tell you
How can you pretend there was nothing wrong?
Nothing wrongYou're never gonna stop the rain
But you know you're gonna be okay
When you love someone
There'll always be another fight
But you know you're gonna be alright
When you love someone
