The Bright Side

Token Entry

The Bright Side

This group sees only the bad side and you feel compelled to join
but there's two sides to every issue two sides to every coin
forget the thieves the hypocrites what's right tells us to hate
take advantage of the good things before its all to late

we will see the bright side from now on

we've got a good thing going compared to all the rest
I've seen so many others and by far this is the best
so please don't give in

there's so many bands and fanzines who try so hard you know
and don't forget the kids who came down to every show
You're the ones that make it the greatest place to be
your undying participation makes this the greatest time for me

we will see the birgt side from now on
