

Need Your Love

Curtis Harding

I feel so blue
Without you girl
I need your love That's why I'm down
You're not around now
I need your love I want you to stay
Don't go away now
I need your love Late at night
When she ain't right girl
I need your love
No, I tried
I can't deny
You know why
I need your love, baby
I need your love Can't get enough
Of your good stuff now
I need your love Don't be late
Girl I can't wait now
I need your love I played a fool
Just to be cool now
I need your love But I'm getting high
Girl I can fly now
I need your love
So I tried
I can't deny
Who know why
I need your love, baby
I need your love, cool girl But there come a time
In every man's life
Where he got to have
His woman's love
You're don't hear me?
Wear your face back in
Alright When I'm by my break
All I can take now
I need your love Who made me feel
All so real girl
I need your love I heard this song
Girl come on now
I need your love I pray it again

Until the end now
I need your love No I tried
I can't deny
You know why
I need your love, baby
I need your love, cool girl
I need your love, baby
I need your love
