Used and Abused

Chaos UK

For those with money, life is just a game
For us supposed working class, it's far from the same
But are they fascists just because they're rich
What so you think you'd be like if there was a switch?You may say now that you'd look after your kind
But power drills a hole in your head and sucks out your mindUsed and abused, we don't want rich man's law
For it's state controlled terrorism, violence, greed and war
Used and abused, we don't want you dreams
Of nuclear power, bombs, guns and unemployment schemes
