

My Moons

Yellow Ostrich

I know that you're busy now.
Don't you love when you can't be found?
All alone in the orange night.
All alone in the orange night. Find a cave and they'll flush you out.
But find a crowd till' you want to shout.
Hiding under the brightest light.
Hiding under the brightest light. Chorus:
My moon's bring me silence
And I am glad for it
and I am glad for it.
Your smile brings me sadness.
But I do long for it.
But I do long for it. Can you build me a bigger house?
Can you work from the inside out?
I want to see all the sky above.
I try to like all the things you love. Does it hurt you when you get cold?
Does it kill you when you get old?
High above you don't ever know.
High above you don't feel the cold. Chorus:
My moons bring me silence.
And I am glad for it.
And I am glad for it.
Your smile brings me sadness.
But I do long for it.
but I do long for it.
Yeah.. x2 I want to float on by.
Float on by.
Float on by.
Float on by.
...
My moons bring me silence.
Bring me silence.
Bring me silence.
Bring me silence.
...
