Like A Real Freak

R Kelly

Yeah
You know
Two thousand TP c'mon
C'mon yeah c'mon
Rock land baby c'mon
This is how we do it
Money cash cars clothes
Money cash cars clothes
Boys and girls this is how we play
Boys and girls this is how we play
I'm lovin' the way you put that thing on me yeah
Like fantasy island you fulfill my dreams
You're makin' me want to spend my cash on you yeah
'Cause can't nobody freak me like you do
You go
Up and down
Go left and right
Go in and out
And work it like a real freak should
Up and down
Go left and right
Go in and out
And work it like a real freak should
Two thousand six drop top parked at my home
And I'll be hittin' that piece the whole night long
Girl your sex so good I just can't get enough
Even though your friends say I'm a thug
You still go
Up and down
Go left and right
Go in and out
And work it like a real freak should
Up and down
Go left and right
Go in and out
And work it like a real freak should
Girl run to your Internet and download me
Get my computer love right off your screen
See your body's cut just like my jewelry

We can pop some cris' in my jacuzzi
You'll be goin'
Up and down
Go left and right
Go in and out
And work it like a real freak should
Up and down
Go left and right
Go in and out
And work it like a real freak should
Now the valet may be full
But a cat like me got pull
VIP'n it at the club
While you be goin' up
Sex with me not hard to see
Roll with a G roll a tree
Soak the sheets strokin' deep
Nah y'all niggas can't fuck with me
Tryin' to creep blow the fleet
Working O.T, supposed to be
Hit it from the back spank the cheeks
Pulled her hair pushed it deep
Pound da meat, sound asleep
Found a beach, grind and freak
Manage a troys, roll with R
Posed the part like a porno star
Doin' shit never done before
Get it all now goin' on tour
Major league cats goin' to war
Drop top six Bentley Azure
Rock land
Up and down
Go left and right
Go in and out
And work it like a real freak should
Up and down
Go left and right
Go in and out
And work it like a real freak should
Up and down
Go left and right
Go in and out
And work it like a real freak should
