

If It Hurts

Fight Or Flight

From every thought to every step I take, to every meeting
I never thought I'd be the one to break a piece so needy

Are you the handful, the weak, or the hopeful?
Are you the tired, the freak, or the noble?

If it hurts you to see then keep your eyes closed
If it hurts you to think, don't let your mind go
Do you feel controlled? Let somebody know

From every touch to every last mistake I face the fire
I changed the love, I've broken up, and now I'm left a liar

Are you the handful, the weak, or the hopeful?
Are you the tired, the freak, or the noble?

If it hurts you to see then keep your eyes closed
If it hurts you to think, don't let your mind go
Do you feel controlled? Let somebody know

No way

Are you the handful, the weak, or the hopeful?
Are you the tired, the freak, or the noble?

I won't take no for an answer, no way
I won't take no for an answer, no way

Do you feel controlled? Let somebody know

If it hurts you to see then keep your eyes closed
If it hurts you to think, don't let your mind go

If it hurts you to see then keep your eyes closed
If it hurts you to think, don't let your mind go

Do you feel controlled? Let somebody know
Let somebody know. Let somebody know
