Let Me Love the Lonely

[James Arthur](#)

You laugh at all the jokes
Even the ones you know
Funny I'm doing that, too
I love the crowded room
The one string that's out of tune
Trust me, I feel like I doLet me love the lonely out of you
Let me love the pain you're going through
I think I've saved myself by saving you
Let me love the lonely out of youLighthouse without the lights
You smile without your eyes
I know, 'cause I do that too
Your own worst enemy
You think that no one sees
I do, 'cause I'm like that tooLet me love the lonely out of you
Let me love the pain you're going through
I think I've saved myself by saving you
Let me love the lonely out of youOh, we can light a fire to warm our bones, yeah
This world's much too cold to sleep aloneLet me love the lonely out of you
Let me love the pain you're going through
I think I've saved myself by saving you
Let me love the lonely out of youLet me love the lonely out of you
Let me love the pain you're going through
Think I've saved myself by saving you
Let me love the lonely out of you
