

Colors

Freddy Mullins

I was yellow more than the sun
I went blue just like the sea
Envy turned me green, just like the grass
Now I'm gray from my pastTry as I might
These colors aren't right
I'm only bold
In your goldI was black more than the night
I went white just like the stars
Desire turned me red
Just like the rose I held
While I bledTry as I might
These colors aren't right
I'm only sold
By your gold
