

Forever

The Marvelettes

Darling forever, forever
You can break my heart
Forever, if you want to
I'll play the part
Of a fool
Just to be with you
ForeverDarling forever, forever
You can torment me
Take my love for granted
But I'll always be
Just a fool
If I, if I, could be with youI'll be your slave
For the rest of, of my days
Love you more in so, so many ways
Just to be with you thrills me
Through and throughAnd darling forever, forever
You can torment me
Take my love for granted
But I'll always be
Just a fool
If I, if I could be with you
