

Crucify Me

Bring Me the Horizon

Crucify me, and nail my hands to a wooden cross.
There is nothing above, there is nothing below.
Heaven and Hell lives in all of us,
And I've been cast astray.

I am an ocean, I am the sea,
There is a world inside of me.
Lost in the abyss, drowned in the deep,
No set of lungs could salvage me.
Only a shipwreck, only a ghost,
Merely a graveyard of your former self.
We just watched the waves crash over.
I've been cast astray.

There is a Hell, believe me I've seen it.
There is a Heaven, let's keep it a secret.
(No one needs to know)
There is a Hell, believe me I've seen it.
There is a Heaven, let's keep it a secret.
(No one needs to know)

I am an ocean, I am the sea,
There is a world inside of me.
Lost in the abyss, drowned in the deep,
No set of lungs could salvage me.
Save yourself, save your breath,
The tides too strong, you'll catch your death.
So breathe for me, just breathe.

There is a Hell, believe me I've seen it.
There is a Heaven, let's keep it a secret.
There is a Hell, believe me I've seen it.
There is a Heaven, let's keep it a secret.

If we make it through the night, if I make it out alive,
Lord have mercy and pray for the dead.
And you say that you can save me,
Don't hope to ever find me,
I fear I'm too far gone.

Pray for the dead

If we make it through the night, if I make it out alive,
Lord have mercy and pray for the dead.
And you say that you can save me,
Don't hope to ever find me.
I fear I'm too far gone
Pray for the dead

Pray for the dead
Pray for the dead
Pray for the dead
Yeah

Ladies and gentlemen, can I have your full undivided attention?
There is something you all really need to know.

There is a Hell, believe me I've seen it.
There is a Heaven, let's keep it a secret.
There is a Hell, believe me I've seen it.
There is a Heaven, let's keep it a secret.

If we make it through the night, if we make it out alive.
You say that you can save me,
Don't hope to ever find me
I fear I'm too far gone.
Pray for the dead

If we make it through the night, if we make it out alive.
Lord have mercy and pray for the dead,
You say that you can save me,
Don't hope to ever find me
I fear I'm too far gone.
Pray for the dead

I am the ocean, I am the sea
There is a world inside of me
I am the ocean, I am the sea
There is a world inside of me
I am the ocean, I am the sea
There is a world inside of me
I am the ocean, I am the sea
There is a world inside of me

I am the ocean, I am the sea
There is a world inside of me

I am the ocean, I am the sea
There is a world inside of me
I am the ocean, I am the sea
There is a world inside of me
I am the ocean, I am the sea
There is a world inside of me
