

Quieter Today

Cloud Nothings

[Verse 1]

I think I know you lie
I know a thousand times
We must be hiding this so I'll still see you
There's nothing wrong with trust
I just don't have it now
I can't tell myself that love is real[Pre-Chorus]
Every time I feel okay my heart moves forward
Thinking of the one today and I get timid
Every time I feel okay my head moves forward
Figure out the one today and I get started[Chorus]
No one wants to hear about your [?]
Nothing in this world [?]
No one is it, no one needs it
Say what you want but I don't hear it
To keep it quieter today[Verse 2]

I think I know you lie
I know a thousand times
We must be hiding this so I'll still see you
There's nothing wrong with trust
I just don't have it now
I can't tell myself that nothing's real[Pre-Chorus]
Every time I feel okay my head moves forward
Thinking of the one today and I get timid
Every time I feel okay my head moves forward
Figure out the one today and I get started[Chorus][Outro]
Try to keep it quieter today
Try to keep it quieter today
