

# Don't Knock Me Out

## Blue System

Ohh, I will change my name, I will change my face

I will tell the truth and I will win the race

I will beg and borrow my love you'll see

'Cause love is a drug gotta hold on meI will change my jeans and I will wear a tie

And I'll spend all my bucks just for one more try

I will steal the stars from the sky, it's true

'Cause love is a drug just for me and youDont knock me out, dont leave me this way

Ohh, I love you every day, Jessamine

I saw you in my dreamDont knock me out, dont gamble with me

Ohh, I tell you my love is real, Jessamine

I saw you in my dreamOhh, I will change my car and I will change my friends

And I pray to God that it never ends

I will fall on my knees for your love youll see

'Cause love is a drug gotta hold on meOhh, I will change my life and I will go to school

I will give you my house on 5th avenue

I will steal the moon from the sky, it's true

'Cause love is a drug just for me and youDont knock me out, dont leave me this way

Ohh, I love you every day, Jessamine

I saw you in my dreamDont knock me out, dont gamble with me

Ohh, I tell you my love is real, Jessamine

I saw you in my dreamDont knock me out, dont leave me this way

Ohh, I love you every day, Jessamine

I saw you in my dreamDont knock me out, dont gamble with me

Ohh, I tell you my love is real, Jessamine

I saw you in my dream
