Time Is Not Our Cage

Eiffel 65

We are flying
and we're flying high till the end
We are men without an age
Time is not out cage
and forever we go on
We are flying
and we're flying high till the end
We are men without an age
Time is not out cage
Born to be forever young
Children of eternity
Always searching for a faster race
Defeating what time wants to be
There's no king
In this place
Like a star that belongs to the sky
And the times are our names in your mind
Our souls are the wings as we fly
Against time
We are flying
and we're flying high till the end
We are men without an age
Time is not out cage
and forever we go on
We are flying
and we're flying high till the end
We are men without an age
Time is not out cage
Born to be forever young
Just like an old song that's playing a tune

That revives what seems lost in the past
With dignity fighting for whom
In a way
Wants to last
Like a friendship of 10 years ago
That is frozen inside of a picture
That tomorrow can cancel and go
Against time

We are flying
and we're flying high till the end
We are men without an age
Time is not out cage
and forever we go on
We are flying
and we're flying high till the end
We are men without an age
Time is not out cage
born to be forever young
Free as a soul is
Far beyond all the boundries of time
Its you mark that lives on
We are flying
and we're flying high till the end
We are men without an age
Time is not out cage
and forever we go on
We are flying
and we're flying high till the end
We are men without an age
Time is not out cage
born to be forever young
