

# It Sounded Like An Accident

## Drop Dead, Gorgeous

Soaked in blood only to be sterilized  
Served alive, I want to be traumatized  
Soaked in blood only to be sterilized  
Served alive, I want to be traumatized  
Don't tell, don't tell, keep this in your locket  
Don't tell, don't tell, keep this in your locket  
Don't tell, don't tell, keep this in your locket  
Soaked in blood only to be sterilized  
Served alive, I want to be traumatized  
Soaked in blood only to be sterilized  
Served alive, I want to be traumatized  
Wade in the water, careful for sharks  
Wade in the water but not for too long  
Wade in the water, careful for sharks  
Wade in the water but not for too long  
Wade in the water, careful for sharks  
Wade in the water but not for too long  
Wade in the water, careful for sharks  
Wade in the water, not for too long  
The pain is deep and wide  
Cannot escape from the lives we have made  
Where are we now?  
I'm starting to forget  
Just what it was you said exactly  
The love is gone only to spawn  
Disastrous memory  
I'm starting to forget  
I'm starting to forget  
I'm starting to forget  
Soaked in blood only to be sterilized  
Served alive, I want to be traumatized  
Soaked in blood only to be sterilized  
Served alive, I want to be traumatized
