

# Miracle

## Rig

It's hard to see reason  
When there's so little hope alive  
    This is the season  
    To put faith in innocent eyes  
    We're all thinking too much  
    We're so out of touch  
    We need to start over again  
    So just let it wander  
'Cause you're never too old to pretend  
    Tell you, just a little miracle  
    Is all you need to believe  
    Just a little miracle  
    Is all you need to believe  
    It's not too late to wake up  
    Don't make no difference who you are  
    Just take off your make-up  
    And discover the child in your heart  
    Tell you, just a little miracle  
    Is all you need to believe  
    Just a little miracle  
    Is all you need to believe  
    We're all thinking too much  
    We're so out of touch  
    We need to start over again  
    So just let it wander  
'Cause you're never too old to pretend  
    Tell you, just a little miracle  
    Is all you need to believe  
    Just a little miracle  
    Is all you need to believe
