

Smooth Sailing (1951 Version)

Ella Fitzgerald

We didn't break apart in stormy weather
We didn't run around like others do
Now we're not afraid when storm clouds gather
'Cause we got the kind of love that'll see us through[Chorus]
We've got smooth sailing, sailing
Looks like every drop of rain is gone, gone, gone
Smooth sailing, sailing
And a blue sky full of rainbows from now on We find each others arms in troubled waters
We found that's the safest place to go
From now we can laugh at troubled waters
'Cause our roughest storms just seem to make love grow[Chorus: x2]
