

Last Time

Trey Songz

Songbook baby, I like to thank Mr. Bryan Micheal Cox
For helpin' me illustrate my feelin'
It's just gettin' too hot, baby, it's gettin' too hot
This the last time and the last chapter, ah me for you
For the last time, this is gonna be the last time
It's gonna be the best though, I promise, just one last time
'Cuz if she catch me with you, she will kill us
These hotel rooms is lookin' too familiar
Your love is so, so serious
Girl, you keep me comin' back, back that is
I be with her thinkin' of you
I be with you thinkin' of her, my boo
She just don't deserve this, ain't nobody perfect
But I just can't take no more, 'cuz
I'm livin' two different lives
One girl in the day, you in nite
And even though this ain't right
I just can't get enough
Of da way you put it down
You really got me trippin'
Hold up, baby girl
Don't talk just listen
Let's just make love, girl, for da last time
Yep I said, da last time, girl, this the last time
I'm all caught up and it's time to put it down
You really got me trippin'
Hold up baby girl, just listen, this the last time
See the problem is I'm too deep involved
To be playin wit yo emotions, you really got me open, oh
I gotta figure it out, can't let no pussy come before my baby
Not baby, no, 'cuz she's da only one that ease my mind
But girl, you just so fine, oh, give it to me one last time
Baby, let your hair down, take it to the bed now
Spread them lovely legs now, one last round
I'm livin' two different lives
One girl in the day, you in night
And even though this ain't right
I just can't get enough
Of da way you put it down

You really got me trippin'

Hold up, baby girl

Don't talk just listen

Let's just make love, girl, for da last time

Yep I said, da last time, girl, this the last time

I'm all caught up and it's time to put it down

You really got me trippin'

Hold up baby girl, just listen, this the last time

Let me see yo, take off ya clothes for the last time

Let's keep this thang on the low for the last time

Tell me how you wanna get it

I know ya favorite is da kitchen

And da way I used to kiss it

Girl, I know you're gonna miss it

But there's only one condition

Baby, please don't fuss

Don't be trippin', keep it pimpin'

Baby girl, let just make love

For the last time, the last time, the last time

I'm livin' two different lives

One girl in the day, you in night

And even though this ain't right

I just can't get enough

Of da way you put it down

You got me trippin'

Hold up, baby girl

Don't talk just listen

Let's just make love, girl, for da last time

I said, da last time, this is the last time

I'm all caught up and it's time to put it down

You really got me trippin'

Hold up baby girl, just listen, this the last time

I'm livin' two different lives

One girl in the day, you in nite

And even though this ain't right

I just can't get enough

Of da way you put it down

You really got me trippin'

Hold up, baby girl

Don't talk just listen

Let's just make love, girl, for da last time

Yep I said, da last time, this the last time

I'm all caught up and it's time to put it down

You really got me trippin'

Hold up baby girl, just listen, this the last time
