

Open Season

[Eleanor Friedberger](#)

Have you seen the movie yet?
There's a lot about it in the past
It made me think of you,
Did it make you think of me? Is it freezing over there?
I am moping in a tree new zillion
That's my new hobby 25 thousand reasons,
and you only needed one
Open season has begun, begun
I may be over in the spring,
To do a little spring cleaning
I don't know where you are,
But you're not home, video streaming!
Well, we got a place together
That was never my address
Now here's the receiving This is the part I lost my voice
I couldn't make you do it
And now I have no choice 25 thousand reasons,
and you only needed one
Open season has begun, begun
There are many distractions,
Sopping on my energy
Did you find the antique needles in the money in deceiving?
No need to thank me,
I left it where you find it
Beneath the old???
