Love Spells

Bleached

I don't wanna see you anymore
You keep on knocking at my door
I told you once
Yeah, I told you before
You're a lost 'cause
Don't work anymore
I know I've seen you before
Are you coming back for more?
Will I see you tonight when I open up my heart?I know I've seen you before
Are you coming back for more?
Will I see you tonight when I open up my heart?
I gave you all I had
I gave you all that could've been mineTold you once
Yeah, I told you before
You'll keep on running back, for sure
You're a lost cause
Don't work anymoreI know I've seen you before
Are you coming back for more?
I'll see you tonight when I open up my heart
I know I've seen you before
Are you coming back for more?
Will I see you tonight when I open up my heart?I know I've seen you before
Are you coming back for more?
I'll see you tonight when I open up my heart
I know I've seen you before
Are you coming back for more?
Will I see you tonight when I open up my heart?I know I've seen you before
Are you coming back for more?
Will I see you tonight when I open up my heart?
I know I've seen you before
I know I've seen you before
I know I've seen you beforeI know I've seen you before
I know I've seen you before
I know I've seen you before
