

Midnight

The Watson Twins

Midnight is calling
The moon is up above
And I can hear you calling
Those sad eyes looking for love Tied up by your memories
It's quarter to four
And you always have the upper hand
I always come back for more Careful what you wish for
I know the score You go no no, no no, no no, no no no
You know no no, no no, no no, no no no
You go no no, no no, no no no no no no
You're no good Afraid to see the sunrise
Cause darkness come to end
Dreams that rest upon you
Faintly feel that sentiment Careful what you wish for
I know the score You go no no, no no, no no, no no no
You know no no, no no, no no, no no no
You go no, no, no, no, no, no, no, no, no, no, no
You're no good
