Love Salvation

Conway Twitty

Out of the night you came to rescue me
From my world of misery
I saw the light, I saw your love-light shine
I saw the light the first time I looked in your eyesYou are my love salvation
You are my sweet sensation, woman
You are my love salvation
Into my desperation, womanOpen your arms, I need to feel your touch
Rescue me with your love
Hold me tight, come on and hold me tight
Promise me you will hold me 'til the morning lightYou are my love salvation
You are my sweet sensation, woman
You are my love salvation
Into my desperation, womanYou saved me from my sorrow
You saved me from my Hell
You saved me from my trouble
You saved me from myselfYou are my love, you are my love salvation
You are my sweet sensation, woman
You are my love salvation
Into my desperation, womanLove salvation
Love salvation
Love salvation
Love salvation
