Together

Michelle Branch

It doesn't matter how far apart we are now
You can add up all the miles in between
If you take a good look all around now
All you see is you and me
When I look at myself in the mirror
I see you standing there smiling at me
And I'm right back at the beginning
Lost inside this memory
I won't ever let go, all that I want to hold onto
And we belong together
Like the moon and stars in the midnight
And we'll be strong forever
?Cause we belong together
Whoa, whoa, whoa, whoa
Doesn't matter how long that it takes you
?Cause I'll always be right by your side
And even when darkness awaits you
I'll be there to be your light
It's a hard lonely road
When you're standing outside in the cold hoping
And we belong together
Like the moon and stars in the midnight
And we'll be strong forever
?Cause we belong together
Whoa, whoa, whoa, whoa
Sometimes it's hard to learn to let go, whoa
Life always knows the right moment
To show you what you needed
And we belong together
Like the moon and stars in the midnight
And we belong together
Like the moon and stars in the midnight
And we'll be strong forever
?Cause we belong together
And we belong together
Like the moon and stars in the midnight
And we'll be strong forever
?Cause we belong together
Whoa, whoa, whoa, whoa

Whoa, oh
