That Kind Of Man

The Heavy

Heartless heartless
I got something on my mind
And you keep on talking
The only phone is on my side
And now I'm hanging up
I've been thinking about our love
I've been thinking about our love
Show me something
Cause what you give is not enough
And I'm not that kind of man
Whose gonna stay around and please
Just please her
I'm that kind of man
Who's deliberately confusing
Heartless heartless

You can wake up in our bed
And there must be something
Support that picture in your head
There's gotta be, I don't understand
When I feel like calling
I worked out there's something close
But I don't know, so I'm walking out the door
I'm walking out the front door
And I'm not that kind of man
Whose gonna stay around and please
Just please her
I'm that kind of man
Who's deliberately confusing
I'm that kind of man
