

Grace

Jenny Phillips

Lost and wayward sinner
Cold and selfish heart
Suffering in my shame
Calling out Your name

Oh Maker
Sustainer
Life-changer
Rescue me now from this place
I wrestle with demons that I can't erase
I long for the footsteps that I cannot retrace
I seek You
And reach You
Beseech You
My weakness must be Your disgrace
But the one thing I see in Your face
Is grace

Empty and depleted
Doubting unbelief
Longing for relief
Desperate for Your peace

Oh Maker
Sustainer
Life-changer
Rescue me now from this place
I wrestle with demons that I can't erase
I long for the footsteps that I cannot retrace
I seek You
And reach You
Beseech You
My weakness must be Your disgrace
But the one thing I see in Your face
Is grace

I seek You
And reach You
Beseech You
My weakness must be Your disgrace

But the one thing I see in Your face
Is grace
