

Voices

Cheap Trick

You didn't know what you were lookin' for
Till you heard the voices in your earHey, it's me again
Plain, you see again
Please, can I see you every day?
I'm a fool again
I fell in love with you again
Please, can I see you every day?You didn't know what you were lookin' for
Till you heard the voices in your ear
You didn't know what you were lookin' for
Till you heard the voices in your earWords don't come out right
I tried to say it, oh, so right
I hope you understand my meaning
Hey, it's me again
I'm so in love with you again
Please, can I see you every day?You didn't know what you were lookin' for
Till you heard the voices in your ear
You didn't know what you were lookin' for
Till you heard the voices in your earI remember every word you said
I remember voices in my head
I remember every word you said(I hear your voice)
Your voices
Cool voices
Warm voices
It was just what I needed to(Words don't seem right)
Cool voices
Warm voices
Your voices
But it's just what I needed for(Love is the word)
Warm voices
Your voices
Cool voices
It was just what I needed to(I hear your voice)
Your voices
Cool voices
Warm voices
It was just what I needed to
Just what I needed to, just what I neededYou didn't know what you were lookin' for
Till you heard the voices in your ear
You didn't know what you were lookin' for

Till you heard the voices in your ear
You didn't know what you were lookin' for
Till you heard the voices in your ear
