Holy Shit

Randy

How the fuck can we believe
In a God or Spirit that's never been seen.
Just made up to exploit and deceive
Every weak human intellect, try to seeIt's just another instrument to oppress
The poor and strengthen the upper class.I can't see how the fuck you can
Buy this shit, try to understand
This is just another fairy-tale
But you swallow everything anyway.But I have hope for humanity
We're all equipped with a mind to see
Through this bullshit hypocrisy
Made up to fuck up equality.
