

Pill or Potion

The Grass Cats

There's no pill, there's no potion,
There's not a powder or a lotion,
That can ease the pain of this broken heart
I talked to the Governor and prayed with my preacher
I saw a healer and my old school teacher
Still nothing can ease the pain of this broken heart

[Chorus]

Well the doctors they don't know
Why my heart still hurts me so
It's been a year now since you left for your new start
I keep hoping day to day, that the hurts gonna go away
Still nothing can ease the pain of this broken heart

No operation or procedure could ease my mind so
I don't need her
And would ease the pain of this broken heart
No treatment plan or diagnosis so there's only one prognosis
Oh nothing can ease the pain of this broken heart

[Chorus]

Well the doctors they don't know
Why my heart still hurts me so
It's been a year now since you left for your new start
I keep hoping day to day, that the hurts gonna go away
Still nothing can ease the pain of this broken heart

[Chorus]

Well the doctors they don't know
Why my heart still hurts me so
It's been a year now since you left for your new start
I keep hoping day to day, that the hurts gonna go away
Still nothing can ease the pain of this broken heart
